

Technology

MMS offers electronic solutions for supply chain management for all levels of need, staff proficiency, and hardware restrictions in any size healthcare provider environment. Our commitment is to find the solution right for each Customer rather than fitting you to our solution!

- Reduce costs
- Easily and accurately track expenditures
- Tie product usage to patients, departments, caregivers, and cost centers
- Assure all earned rebates are realized
- Assure all expenditures are accurately reimbursed
- Contract management
- Reduce product waste
- Set measurable benchmarks
- Create realistic budgets/forecasts

Electronic Ordering/Invoicing Catalogs

OnLine™ Ordering

Uses the Internet to speed your product selection and ordering processes, research products and pricing and order history.E.D.I.MMS has full

E.D.I.

capabilities and supports all transaction files to the ANSIx12 standards

Global Healthcare Exchange (GHX™)

MMS is proud to be a sponsor and participant in the GHX ordering system. GHX is the healthcare industry software that allows electronic ordering and billing through a single front-end program. GHX allows you to go to one Web site to order from all your preferred suppliers (food, medical/surgical supplies, pharmaceuticals, equipment, etc.). Your order is automatically routed to your preferred vendor with your pricing

Supply Chain Solutions

Low-Unit-of-Measure Inventory Services (L.U.M.™)

MMS's custom solution allowing Acute Care facilities and large nursing homes to use JIT (just in time) inventory management to save time, space and assure necessary products are available when needed.

O.R.I.O.N.™

This system is the industry's most sophisticated and flexible Online Replenishment Inventory Ordering Network, and manages inventories and charge capture.

Suture Management

Add structure, accountability and control to suture inventory.

Activity Based Costing

Track ALL supply chain costs and identify and measure savings.

Interfaces

Connect your electronic ordering and tracking systems for maximum efficiency and current data:

- Closed cabinet inventory management systems
- Operating Software
- Accounting
- 3rd Party Payor systems

Contact your MMS Representative for a free assessment of the system best for you, or email, customersupport@mmsmedical.com
